

0153 temperature probe

Digital sensor type "Plug&Play " allowing an automatic recognition of the probe characteristics by PULSIANE II weather station

Meteorological characteristics

Range : -30°C to +50°C

Accuracy : $\pm 0.3^{\circ}\text{C}$

Elaborated data by weather stations

Minimum,
Maximum,
Average
Freezing duration

Using

In air : level 0, +10 cm, +20 cm, +50 cm, +100 cm and others on request

In soil : level -10 cm, -20 cm, -50 cm and others on request

Maintenance

Calibration each 3 years

Other characteristics

Sizes : $\varnothing 10 \times 82 \text{ mm}$

Weight : 50 g

Cable length : 3m

Connexion on screened plug RJ 45

48,rue de Versailles
91400 Orsay

Phone : 01 64 46 34 10

Fax : 01 64 46 25 22
